Did you know

School Attendance: A key to success – missing 1-2 days per month from kindergarten to class 12th will count toward missing of one full academic session. One of the most important prerequisite of academic success is attending school every day. In fact, research has shown that the child’s attendance is the biggest factor influencing his/ her academic success.

In the words of John Dewey, “Education is not preparation for life; education is life itself!” Keeping this in mind, our youngsters showcase their talent every day through various activities enabling them to learn and grow holistically. After the busy months of September and October, they now step into November with a whole new set of learning skills. This is to challenge and encourage them to do better in every field. At Delhi Public School Firozabad the task of guiding children toward their journey to adulthood is taken up with the utmost seriousness through strategically and scientifically planned steps so that the students and parents can naturally enjoy the process of becoming lifelong learners. The guiding principles of NEP emphasize connecting knowledge to life outside...

Ready to welcome a new month

Thanks
